Special Donations to Academies and

Among the innumerable outlets to the Treasury of Maryland, that of special donations to private schools and sectarian institutions is not one of the least, and one which is on the increase, like most others in the State. There were appropriated to this purpose in 1866, \$44,750,00; in 1870, \$62,350.00, an increase of \$17,600. The following is a list of the institutions receiving the donations which make up this grand total:

Are those patient and long-suffering people willing to longer allow the Maryland Democratic party to squander their money on favorites, and lavish pensions on a host of private institutions, and by such means pile up mountain high the State debt and taxes? When they consider the facts and figures above given, and the further fact that the first Democratic Legislature which attained power after the Republican party in the State, voted appropriations amounting to eight millions and six hundred thousand dollars; more than the Republican party expended for State purposes during the six years previous, in the midst of war. We ask the farmers who find it in those seasons of short crops most difficult to pay the heavy Democratic taxes that are increased on them every year, to pause and consider whether the Democratic party of Maryland, with its senseless cry of "nigger equality" hasn't been a rather expensive luxury for the last four years?

The Fall of Baylon.—The bloody contest in and around Paris, the modern Babylon, has about terminated in blood and fire. The Versailles army entered Paris the early part of this week, and drove the Commune army from street to street. The Commune-like devils, contested every inch, and in their desperation and frenzy, set fire to the palaces. The Tulleries were entirely burned down; so also were the Palaces of the Legion of Honor and Council of State. The Hotel de Ville was blown up and burned. A despatch to the N. Y. This abuse, however, is quite old, and originated in the days when public schools were unknown, at least in Maryland. In place of curtailing this heavy and well nigh useless public expenditure, the point we make is that the present party in power in the State, have increased the expenditure for this long list of self constituted "Academics" \$17,600, while the public school system had every damaging blow dealt it that was possible. Letter from Colorado.

A Convention was held in Baltimore, on Tuesday last, which had in view the more effectual organization of the Republican element of the State, in order to bring to bear the full force of the existing opposition to the present rebel Democratic party, which for five years past has robbed the treasury and squandered the public monies in State, county and corporation, wherever they have had control.

Colonel Edward Wilkins, of Kent, was elected Chairman of the Convention. elected Chairman of the Convention.

After an interchange of views the convention passed a series of resolutions the preamble to which sets forth that in the judgment of the convention,

preamble to which sets forth that in the judgment of the convention,

"The present seeming apathy of the Union and Republican party of Maryland is due mainly to a lack of sympathy and cordiality among those who, although holding the same pelitical opinion in State and National polities, have been unhappily divided and alienated; and

"Whereas, It is the opinion of this Convention that advantage should be taken of the State and Municipal Governments by the party now in power, and believing that this end can now be most effectually accomplished by reuniting and harmonizing, the Union and Republican party, and by drawing to its support the patriotic and honest men of all parties."

The resolutions purpose a thorough reorganization of the Union Republican party of the State.

The Administration of President Grant is strongly endorsed. Universal amnesty is recommended. The policy adopted by the Democrats of closing the Public Schools in several of the counties is condemned in strong terms."

Resolved, That the well-tried devotion to the Union and Republican party of Hon. John A. J. Creswell, and his able administration of the Post Office Department, as well as the deep interest he has manifested in the welfare of our State, entitle him to the graitfude of our people.

Speeches were delivered by Hon. C. L. L. Leary, Major F. M. Hancock and Milton Whitney, Esq.

Five members from Baltimore City and two from each county, were appointed a committee of correspondence to carry out the views of the Convention in superintending the work of reorganization throughout the State, that such action may be brought to bear as will insure a vigorous

Greatest Invention of 19th Century Farmers, Look to Your Interest!

The attention of farmers is particularly directed to the EUREKA MILL, and to the many advantages it passesses over every other Yanning Mill which has been introduced to the public. It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. Not feeling satisfied with former attainments, he determined to reach the climar, and now believes that his new invention will warrant him in exclaiming, in the joy of his heart, like the philosopher, Phythagoras, EUREKA, signifying in the Grecian language, "I have found it," This has given the name to this new Mill.

This Mill contains all the advantages of every other Fanning Mill in use, to which is added several improvements never before introduced.

THE EUREKA MILL

is smaller and lighter, and is espable of doing more and better work in a given time then any other Mill ever invented. It is the only Mill that will successfully remore from Wheat all such pests as Cockle, Garlic, Oats, Rye, &c. It is the only Mill in existence that will make grain perfectly clean by once putting through in the

It will chaff as fast as the beat mills heretofore in use,
while a small boy can turn it with case.
Should an extra quality of grain for seed or gristing

Throsher and Cleaner Again Victorious.

A trial of Thrashing Machines took place on the 17th day of April, 1871, at the farm of Benjamin Briggs, new Tullytown, Penna, which resulted in a victory for the Allany Machine, as follow:

Each party had the priviledge of thrashing twenty-five sheaves before the trial to give them an epportunity to regulate their machine, after which each machine thrashed two hundred sheaves of Outs, of which an accurate account was kept of the time occupied in thrashing and grain wasted

The time of the Albany Machine in thrashing two hundred sheaves was Twenty-two infinites which and in thrashing the same number of sheaves was Thirty-three and shalf minutes; making a difference of Rixyrs and 18th Machines were not by the same Power and Team.

The difference in the saving of grain on two hundred sheaves was Eleven and One-Fourth pounds in favor of the Albany Machine, will do the same work in one-third less time, and in thrashing twenty-five hundred sheaves will save one hundred and forty list noveling that the Albany Machine will do the same work in one-third less time, and in thrashing the treation Agricultural Works.

After this conclusive trial we think that Farmers and Dealers will have no difficulty in deciding which of the two machines it is their interest to purchase.

PHILADELPHIA. To Breeders of Trotting Horses. Having realized my expectations in the get of my lamiteroxian Statilion,

SIR CECIL,

Infer his services for this season, confidently believing him to be the best flores ever offered to breeders of Trotting 810ck in this section, and of the most fablonable blood; irrester speed, and higher prices being pold for Hambletonian Inferes than any other strain of stock produced in this or any other country. I have several of his colitonian flores years old, which for style and speed cannot be excelled, if equaled by any in the country. I will take pleasure in showing them to gentlemen who have mare to serve.

His renowned sire, Rysdyks' Hambletonian, not only produced stock of extraordinary speed, but all his colitored from good mares which have served good mares have proved themselves equally successful as sires of trotters. It will notice a few, Elward Everett, now owned by Mr. Bonner, and for which he paid avery high price, is the sire of Mountain Boy, for which Coannod-re Vanderbilt paid twelve thousand dollars. He is also the sire of Jose Billio', the property of Mr. Bonner, and he has trotted in '19. The famous Goldandit Maid, for which sixty thot sand dollars has been offered, is the get of Elsallie Hambletonian. I omit referring to the direct get of the Hero; their name is legion and are familiar to all horsemen in the country.

Every good horseman who has seen my horse SIR CRUL pronounces him as fine a Hambletonian colt as there is in the country, and a far similar of his fluxity and a transmitted this little stock as any of the Hambletonian hamed above?

I will stand him at the very moderate for of First.

that will also serve mare at my place this season. He is of another fancy trotting stock of the country, being a grandson of the celebrated Long Island Black Hawk. His dam was thorough being sired by imported Margave. He is a very stylish and fast horse, and has sired very promising colts; among them several owned by President Grant. I will stand him at the very low (ee of \$30 for the season, giving the same privilege at Lo with "Sir Cecil." I will also give the following premiums for his get of this year:

For the least Colt or Filley in the month of May,

for his get of this year:

For the second lest Colt or Filley in the month of May, 1873.

For the third lest Colt or Filley in the month of May 1873.

I will stand him at the very moderate fee of Fifty Dollars for the season, (he is a very sure foal getter,) with the privilege of the next season gratisif the mare does not proce with foal; and I desire only to serve good mares. My experience in raising horses, being that a good colt long count from a good Sire and common Dam, but that the Sire and Dam both being good the issue is prefity certain to be very good. As an inducement to breed only good mares to lifth and secure good treatment for his get, I offer the following premiums for the get of this year: r: best Colt or Filley in the month of May, \$100
